FOR IMMEDIATE RELEASE

**NEW YORK AIR BRAKE CONTINUES ITS EXCELLENT
SUPPLIER DESIGNATION FROM TTX COMPANY**

NYAB Named to Elite List for Achieving Excellence as a Strategic Supplier

Watertown, N.Y. – Dec. 15, 2021 – Railcar pooling company TTX has once again named New York Air Brake LLC (NYAB) to its elite class of Excellent Suppliers. As part of the 2020 honorees, NYAB was recognized for its commitment to helping TTX exceed customer expectations for quality, cost, on-time delivery, service excellence, plus finance and administration.

NYAB was evaluated in three categories – OE brakes, Rail Services (repair centers), and Friction (ABS). All categories must achieve an “A” rating and a SECO cumulative rating no less than 92.0 to qualify for the “Excellent Supplier” designation.

“Surpassing customer expectations and manufacturing world-class systems and components requires open communication and a team committed to excellence in all parts of our operation. TTX expects suppliers to reach a superior level of service, performance, reliability, quality, and responsiveness, and we are well-prepared to deliver,” said Ulisses Camilo, New York Air Brake president and CEO. “We are truly honored to have earned this distinction.”

Headquartered in Watertown, New York, NYAB is a global manufacturer of innovative train control systems for the railroad industry. NYAB has been recognized as an Excellent Supplier by TTX nearly 20 times.

Chicago-based TTX is a leading supplier of railcars and related freight car management services to the North American rail industry. The company’s right-sized, low-cost, reliable fleet of over 168,000 railcars serves North America’s railroads and the world’s freight needs. TTX

selects the list of annual honorees through a committee whose members are directly involved in railcar component purchases and product performance. The sought-after designation has been in place for over 30 years.

“Our passion for exceptional quality, service, and support, at all levels, is unwavering, and it all begins with a strong relationship built on trust,” Camillo said. “The TTX SECO process is among the most comprehensive and stringent supplier evaluations in the rail industry, making the designation one of the most prestigious. Receiving this award for a second consecutive year reflects our company-wide commitment to consistently improve and go beyond what is expected.”

About New York Air Brake LLC

New York Air Brake LLC (NYAB), a member of Munich, Germany-based Knorr-Bremse, develops and supplies leading-edge air brake control systems and components, electronically controlled braking systems, foundation brakes, training simulators and train handling systems, and wayside equipment to the rail industry. An industry pioneer since 1890, our over 850 team members have a deep customer commitment that fuels us to deliver solutions for improved rail performance, safety, and overall operating cost. New York Air Brake is headquartered in Watertown, New York, with manufacturing plants in Acuña, Mexico; Nixa, Missouri; Riverside, Missouri; Salisbury, North Carolina; West Chicago, Illinois; and Wheatland, Missouri; along with Train Dynamic Systems (TDS), a technology development unit located in Irving, Texas.
